### **INDEPENDENT AUDITORS' REPORT**

Franklin County Board Franklin County Courthouse Benton, IL 62812

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Franklin County Government, Illinois as of and for the year ended November 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Franklin County Board July 27, 2015 Page Two

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Franklin County Government, Illinois, as of November 30, 2014 and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and the Schedule of IMRF Funding Progress to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Franklin County Government Illinois' basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic

financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

### Report on Other Legal and Regulatory Requirements

In accordance with Government Auditing Standards, we have also issued our report dated July 27, 2015, on our consideration of the Franklin County Government, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Franklin County Government, Illinois' internal control over financial reporting and compliance.

Readers of this report should be aware that there is a separate Auditor's Report issued on the Franklin County Circuit Clerk's office as required by the Administrative Office of Illinois Courts. That Auditor's Report should be read in conjunction with this Auditor's Report.

### Other Matter

During the fiscal year ended November 30, 2014, the Franklin County Circuit Clerk's Office learned one staff member had been accused of an attempt to defraud Franklin County Government. There is an investigation pending by law enforcement. The effect on the financial statements of Franklin County Government, Illinois as of and for the year ended November 30, 2014 is unknown as of the date of this report. Accordingly, our opinion is not modified with respect to this matter.

Respectfully submitted,

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Franklin County Board Franklin County Courthouse Benton, IL 62812

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Franklin County Government, Illinois as of and for the year ended November 30, 2014, and the related notes to the financial statements, which collectively comprise Franklin County Government, Illinois' basic financial statements and have issued our report thereon dated July 27, 2015.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Franklin County Government, Illinois' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Franklin County Government, Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of Franklin County Government, Illinois' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Franklin County Government, Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an

KRell

opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters.

We noted certain matters that we reported to management of Franklin County Government in a separate letter dated July 27, 2015.

### Matter of Emphasis

During the fiscal year ended November 30, 2014, the Franklin County Circuit Clerk's Office learned one staff member had been accused of an attempt to defraud Franklin County Government. There is an investigation pending by law enforcement. The effect on the financial statements of Franklin County Government, Illinois as of and for the year ended November 30, 2014 is unknown as of the date of this report. Accordingly, our opinion is not modified with respect to this matter.

### **Purpose of this Report**

Readers of this report should be aware that there is a separate Auditor's Report issued on the Franklin County Circuit Clerk's office as required by the Administrative Office of Illinois Courts. That Auditor's Report should be read in conjunction with this Auditor's Report.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

HUDGENS & MEYER, LLC Certified Public Accountants

# FRANKLIN COUNTY GOVERNMENT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION NOVEMBER 30, 2014

### TOTAL FUND BALANCE - GOVERNMENTAL FUNDS

9,152,669

\$

Total net position reported for governmental activities in the statement of net position are different because:

 Capital assets used in governmental activities are not current financial resources and therefore are not reported in the governmental funds balance sheet. Capital assets consist of the following:

Land	110,250
Buildings	9,307,580
Equipment	7,118,972
Infrastructure	19,201,430
Furniture & fixtures	388,906
Software	50,336
Accumulated depreciation	(29,612,940)

 The long-term debt is not due and payable in the current period and, therefore is not reported in the governmental funds balance sheet. (3,045,000)

- The government-wide financial statements record a compensated absences liability under the economic resources method. As the fund financial statements use the current financial resources method, no liability for compensated absences is recorded.

(969,400)

### TOTAL NET POSITION - GOVERNMENT-WIDE STATEMENT OF NET POSITION

\$ 11,702,803

# FRANKLIN COUNTY GOVERNMENT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED NOVEMBER 30, 2014

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$	526,932
Amounts reported for governmental activities in the statement of activities are different because:		
- Governmental funds report capital outlay as expenditures. However, in the government-wide statement of activities and changes in net position, the cost of those assets is allocated over the estimated useful lives as depreciation expense. This is the amount of capital assets recorded in the current period.		507,808
<ul> <li>Depreciation expense on capital assets is reported in the government-wide statement of activities and changes in net position, but it does not require the use of current financial resources. Therefore, depreciation expense is not recorded as an expenditure in governmental funds.</li> </ul>		(645,000)
<ul> <li>Current debt principal paid is recorded as an expense on the governmental funds statement of activities. It is reclassified against outstanding debt on the government-wide statement of activities.</li> </ul>		120,000

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Franklin County (the "County") was incorporated on January 2, 1818 under the provisions of the State of Illinois and operates as a second class county. The County has a population of approximately 39,500 residents and covers an area of 430 square miles. The County operates under the Township form of government with nine elected board members and provides the following services: public safety, highways and bridges, judiciary and court related, public health, public welfare and general administrative services.

The accounting policies of the County conform to accounting principles generally accepted in the United States of America as applicable to governments except as noted. The Governmental Accounting Standards Board (GASB) is the authoritative standard setting body for the establishment of governmental accounting and financial reporting principles. The accounting and reporting framework and the more significant accounting principles and practices of Franklin County Government are discussed in the subsequent sections of this Note. The remaining Notes are organized to provide explanations, including required disclosures, of the County's financial activities for the fiscal year ended November 30, 2014.

### A. Financial Reporting Entity

The County defines its reporting entity in accordance with provisions established by the Governmental Accounting Standards Board (GASB). GASB requirements for inclusion of component units are based upon whether the County's governing body has a significant amount of financial accountability for another entity. The County is accountable if it appoints a voting majority of an entity's governing body and is able to impose its will on that entity, or there is a potential for the entity to provide specific financial benefits to, or impose specific financial burdens on the County. Based on these requirements, no other entities are considered to be component units of the County. The government-wide financial statements incorporate all governmental activities for which the County is financially accountable.

Related organizations are excluded from the financial reporting entity because the County's accountability does not extend beyond making board appointments. The County has no significant influence over the management, budget or policies of the related organizations.

### B. Government-Wide and Fund Financial Statements

### Government-Wide Financial Statements

The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These statements report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been eliminated from these statements but have not been eliminated in the process of consolidation. Governmental activities, which are normally supported by taxes and intergovernmental, revenues are reported separately. The County has no business-type activities that rely to a significant extent on charges for services from external parties.

The Statement of Net Position presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported in three categories:

1) Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### B. Government-Wide and Fund Financial Statements (Continued)

### Government-Wide Financial Statements (Concluded)

- 2) Restricted net position results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- 3) Unrestricted net position consists of net position which does not meet the definition of the two preceding categories. Unrestricted net position often is designated, to indicate that management does not consider it to be available for general operation. Unrestricted net position often has constraints on resources which are imposed by management, but can be removed or modified.

The Statement of Activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with distinct functional activity. Program revenues include: (1) charges for services which report fees, fines, and forfeitures, and other charges to users of the County's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets and include fees to developers. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

Following the government-wide financial statements are separate financial statements for governmental funds and fiduciary funds. Fiduciary activities are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. The County has determined that the General Fund, Special County Bridge Fund, Federal Aid Matching Fund, Motor Fuel Tax Fund and the Juvenile Detention Center Fund are major governmental funds. All other governmental funds are reported in one column labeled "Other Governmental Funds." The total fund balances for all governmental funds is reconciled to total net position for governmental activities as shown on the statement of net position in the government-wide statements. The net change in the fund balance for all governmental funds is reconciled to the total change in net position as shown on the statement of activities in the government-wide statements.

### Governmental Fund Financial Statements

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide financial statements. The County has presented all major funds that met those qualifications. In addition, the County has presented certain funds, specifically the General Fund, Special County Bridge Fund, Federal Aid Matching Fund, Motor Fuel Tax Fund and the Juvenile Detention Center Fund as major funds because the County believes the financial position and activities of these funds are significant to the County as a whole.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### B. Government-Wide and Fund Financial Statements (Continued)

The fund financial statements present information about the County's funds, including its governmental and fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds. All remaining governmental funds are aggregated and reported in a separate column.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheets. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the County, are property tax, sales tax, intergovernmental revenues and other taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

### Fund Balance Classification

The County implemented the provisions of GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASBS No. 54) in 2012, as required. The purpose of GASB 54 is to improve the consistency and usefulness of the fund balance information to the financial user. The statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which the organization is bound to honor constraints on the specific purpose for which amounts in the funds can be spent.

### Governmental Fund Financial Statements

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The County has classified Redevelopment Inventories, and Prepaid Items as being Nonspendable as these items are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the revenue note and are restricted through debt covenants.
- <u>Committed</u>: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the County Board. These amounts cannot be used for any other purpose unless the County Board removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### B. Government-Wide and Fund Financial Statements (Continued)

existing resources have been specifically committed for use in satisfying those contractual requirements. The County did not have any committed resources as of November 30, 2014.

- Assigned: This classification includes amounts that are constrained by the County's intent to be
  used for a specific purpose but are neither restricted nor committed. This intent can be expressed
  by the County Board or through the County Board delegating this responsibility through the
  budgetary process. This classification also includes the remaining positive fund balance for all
  governmental funds except for the General Fund.
- <u>Unassigned</u>: This classification includes the residual fund balance for the General Fund and the amount established for Minimum Funding which represents the portion of the General Fund balance that has been established to be used for debt service or in emergency situations. A 2/3 vote of the County Board is required to authorize the spending of any of these funds for any reason. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The County would typically use restricted fund balances first, followed by committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

### Government-wide and Fund Financial Statements.

The County classifies net position in the government-wide and fund financial statements as follows:

- Net Investment in Capital Assets: includes the County's capital assets (net of accumulated depreciation) reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted: includes assets that have third-party (statutory, bond covenant, or granting agency) limitations on their use. The County typically uses restricted assets first, as appropriate opportunities arise, but reserves the right to selectively defer the use until a future project.
- <u>Unrestricted</u>: typically includes unrestricted liquid assets. The County Board has the authority to revisit or alter this designation.

The County Board has not adopted a formal minimum fund balance policy.

### Reconciliation of Government-wide and Fund Financial Statements

The financial statements include a reconciliation between fund balance on the Government-Wide Statement of Net Position and the Fund Balance Sheet. The principal element of that difference is the capital assets reported as net of related debt and accumulated depreciation.

The financial statements also include a reconciliation between the Government-Wide State Statement of Activities and the Fund Statement of Revenues, Expenditures and Changes in Fund Balances. The principal element of that difference is that Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### B. Government-Wide and Fund Financial Statements (Continued)

### Fiduciary Fund Financial Statements

Fiduciary Fund Financial Statements include a Statement of Net Position and a Statement of Changes in Net Position. The County's Fiduciary funds represent Agency Funds, which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Agency funds are accounted for on a spending or "economic resources" measurement focus and the accrual basis of accounting as explained above.

### Governmental Funds

Governmental funds are those through which most governmental functions are financed. The acquisition, uses, and balances of the County's expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

The following are the County's governmental major funds:

General Fund – The General Fund is the general operating fund of the County. All general tax revenues and other receipts not allocated by law or contractual agreement to another fund are accounted for in this fund. This fund provides for general operating expenditures, fixed charges, and capital improvement costs not paid through other funds.

<u>Special County Bridge Fund</u> – The Special County Bridge Fund is a special revenue fund used for the receipt and disbursement of local funds for county road and bridge construction and repair.

<u>Juvenile Detention Center Fund</u> – The Juvenile Detention Center Fund is a special revenue fund used to account for the receipt and subsequent disbursement of fees charged and reimbursements received for housing juvenile inmates.

Motor Fuel Tax Fund – The Motor Fuel Tax Fund is a special revenue fund used for the receipt and disbursement of local funds for county road, maintenance, construction and repair.

<u>Federal Aid Matching</u> – The Federal Aid Matching Fund is a special revenue fund used for the receipt and disbursement of local funds for road maintenance matching program.

Additionally, the government reports the following fund types:

### Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

### Fiduciary Funds

<u>Trust Funds</u> – Trust funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. The County maintains trust funds for special taxing districts, the Tax Collector, and for other miscellaneous purposes.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### B. Government-Wide and Fund Financial Statements (Concluded)

<u>Pension Trust Funds</u> – Pension trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans.

<u>Private-Purpose Trust Funds</u> – Private-purpose trust funds are used to account for trust arrangements under which principal or interest benefit specific individuals, private organizations, or other governments – but not the reporting government.

### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The financial statements of the County are prepared in accordance with generally accepted accounting principles (GAAP). The County's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements and applicable Financial Accounting Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements. The County's reporting entity does not apply FASB pronouncements or APB opinions issued after November 30, 1989.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the basic financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, generally including the reclassification or elimination of internal activity (between or within funds). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax revenues are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The County considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for the general obligation bond principal and interest which are reported as expenditures in the year due.

Under GASB Statement #33, property taxes are imposed nonexchange revenue. Assets from imposed nonexchange transactions are recorded when the County has an enforceable legal claim to the asset. The enforceable legal claim date for property taxes is the assessment date. The assessment date has been designated as of January 1 of each year. The property taxes are imposed the following fiscal year. Therefore, the County has recorded \$29,687,307 for 2013 payable 2014 real estate tax installments and deferred charges for taxes and payments assessed as of January 1, 2014 that will not be billed or received until after November 30, 2014. This nonexchange transaction has been recorded in the Tax Collector's fund, which is reported as a Trust Fund. The installment due dates for real estate taxes are typically around August 1, and October 1, of each calendar year.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Concluded)

Major revenue sources susceptible to accrual include: sales and use taxes, property taxes, intergovernmental revenues, and investment income. In general, fines, fees, forfeitures, and other miscellaneous sources of revenue are recognized when cash is received because they are generally not measurable until actually received. Interest on investments is not considered being available until received and therefore is recognized as revenue at that time.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as needed.

The County allocated indirect expenses primarily comprised of central governmental services to operating functions and programs benefiting from those services. Central services include overall County management, centralized budgetary formulation and oversight, accounting, financial reporting, payroll, procurement contracting and oversight, investing and cash management, personnel services, and other central administrative services. Allocations are charged to programs based on use of central services determined by various allocation methodologies. These charges are separately reported in the statement of activities. As a matter of policy, certain functions that use significant central services are not charged for the use of these services. These functions or programs include police, corrections, emergency management, and certain divisions within public services.

### D. Cash and Investments

The County Treasurer pools cash resources of its various funds, except those of certain special revenue and trust funds, to facilitate the management of cash during the year. The Circuit Clerk maintains an investment pool for all funds of the Circuit Clerk. Cash applicable to a particular fund is readily identifiable in the supplementary information presented with the financial statements. The balance in the pooled cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in interest-bearing certificates of deposit. The County considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Interest income earned on pooled investments is distributed to the appropriate funds based on the average daily balance of the investments of each fund. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value.

All cash and investments of the government and fiduciary funds are considered highly liquid, as these funds participate in the Treasurer's pool or the Circuit Clerk's pool. Consequently, these are considered to be cash and cash equivalents for financial statement purposes.

### E. Receivables and Payables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. All payables are reported at their gross value.

### F. Inventories

Inventory, where reported, is valued at cost. Inventory items consist of documentary stamps on hand for future sale by the county clerk and road sign materials for use by 911. Reported inventory is offset by a fund balance reserve, which indicates that they do not constitute "available spendable resources", even though they are a component of net current assets.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### G. Capital Assets and Depreciation

The County's property, plant, equipment, and infrastructure with useful lives of more than one year are stated at historical cost and comprehensively reported in the government-wide financial statements. The County maintains infrastructure asset records consistent with all other capital assets. Donated assets are stated at fair value on the date donated. Assets purchased or constructed with grants are also recorded at cost. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are expensed as incurred. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

Estimated useful lives, in years, for depreciable assets are as follows:

Description	<u>Years</u>
Buildings & Improvements	20-50
Equipment	5-20
Automobiles	5
Software	3
Roads & Bridges	10-50
Other Infrastructure	10-50

### H. Property Taxes

Property taxes are levied based on the assessed value of property as listed on the previous January 1. Assessed values are an approximation of market value. Property taxes are recognized as revenue when they are levied because they are considered to be both measurable and available. Property taxes become a lien on the first day of the levy year and may be paid in two equal installments. The first 2013 payable 2014 real estate tax installment was due on or before approximately August 1, 2014 and the second installment was due on or before approximately October 1, 2014. The County receives its portion of significant distributions of tax receipts approximately one month after these due dates.

### I. Accounting Policy - State of Illinois Taxes

The reserve for special revenue purposes includes motor fuel tax allotments received by the County to be used for future projects as approved by the State.

### J. Compensated Absences

Full-time permanent employees are granted vacation benefits in varying amounts to specified maximums depending on tenure and collective bargaining agreements with the County. Sick leave accrues to full-time permanent employees to specified maximums. The Sheriff's department union contract limits the carryover amount to 80 hours of vacation time per year. The Circuit Clerk's office, States Attorney's office, and Assessor's office are limited by their union contracts to the carryover of 175 hours of vacation time per year. All other union contracts limit the carryover amount to 140 hours of vacation time per year. Sick and personal leave cannot accumulate from year to year to be used as compensated time off.

Employees can accumulate sick days to subsequently be paid into the applicable IMRF plan. There is currently no limit on how many days may be accumulated for payment into the applicable IMRF plan. Elected and appointed officials are not eligible to accumulate vacation or sick hours. The liability for compensated absences as of November 30, 2014 is recorded as a long-term liability in the government-

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### J. Compensated Absences (Concluded)

wide financial statements. Because the amount due in one year is not reasonably determined, there is no short-term liability recorded. A liability for compensated absences has not been recorded in the fund financial statements. Expenses for compensated absences are recognized in the respective funds as employee vacation and sick time is used. The liability for these compensated absences attributable to the governmental activities will be liquidated primarily by the General Fund.

### K. Due To and Due From Other Funds

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

### L. Net Position

The unreserved net position for governmental funds represents the amount available for budgeting future operations. The reserved net position for governmental funds represents the amount that has been legally identified for specific purposes.

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislations adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

### M. Restricted Assets

Restricted assets are comprised of cash and cash equivalents and investments and represent those funds that are restricted as to use either at the time of receipt, by action of a governing body or by legal requirements.

### N. Interfund Transfers

In the fund financial statements, the County has the following types of transactions among funds:

Transfers - Legally authorized transfers are reported when incurred as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

Due to/Due from – Other obligations between funds that are not deemed transfers that have not been repaid as of the end of the fiscal year are recorded as "Due to other funds" by the fund incurring the obligation and as "Due from other funds" by the fund having extended the obligation.

### O. Long-Term Debt and Deferred Debt Expense

In the government-wide financial statements, outstanding debt is reported as a liability. Bond issuance costs, bond discounts or premiums, and the difference between the reacquisition price and the net carrying amount of refunded debt are capitalized and amortized over the respective bonds using a method that approximates the effective interest method. The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. The governmental fund financial statements also recognize the payment of interest, debt principal and issuance costs as expenditures of the current period.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

### P. Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenue, expenses, and expenditures during the reporting period. Actual results could differ from those estimates.

### Q. <u>Deferred Revenue</u>

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities for the current period or for resources that have been received, but not yet earned.

### R. Subsequent Events

Subsequent events have been evaluated by management through July 27, 2015, the date of this report.

### NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

### A. Budget Policy and Basis of Budgeting

The County annually prepares a budget and an appropriations ordinance which includes most general, special revenue, and trust type funds. Once approved, the County Board may amend the legally adopted budget when unexpected modifications are required in the estimated revenues and/or appropriations. The budget information presented reflects the originally adopted budget and any adopted modifications. The budget initiation process follows applicable statutes and regulations. The County does not employ encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation.

Each fund's budget and appropriations ordinance is prepared on a detailed line item basis. Revenues are budgeted by source. Expenditures are budgeted by department and class as follows: services, materials, capital outlay, transfers, and debt service. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level. Budget revisions at this level are subject to final review by the County Board.

The budgets for all funds are prepared on the cash basis of accounting. Revenues are budgeted in the year receipt is expected; and expenditures are budgeted in the year that the applicable claim is expected to be issued. The budget and actual financial statements are reported on the cash basis and modified accrual basis, respectively. Unexpended appropriations for annually budgeted funds lapse at fiscal year-end.

Prior to August 31 of each year, all departments submit requests for appropriations to the County Board so that an annual budget for the next fiscal year may be prepared. The annual budget is prepared by fund, function, and object, and includes information on the prior year, current year estimates, and requested appropriations for the next fiscal year.

Prior to December 1, the proposed budget is presented by the County Board for review. The Board holds all applicable public hearings and may add to, subtract from, or change appropriations, but may not, however, change the form of the budget. All changes made must be changed by an affirmative vote of the County Board.

### NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONCLUDED)

The County's department heads and elected officials may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the County Board.

If requested, the Board may, by two-thirds vote of all its members, make supplemental or emergency appropriations from available resources and may reduce or transfer appropriations among funds or departments.

### NOTE 3 <u>CASH DEPOSITS AND INVESTMENTS</u>

The County is allowed to invest in securities as authorized by the Public Funds Investment Act of the Illinois Compiled Statutes, Chapter 30, Section 235/2.

### A. Cash Deposits

As of November 30, 2014, the cumulative carrying amount of the County's cash and cash equivalent deposits with local financial institutions was \$13,118,827. The cumulative bank balance of these cash and investment deposits was \$14,109,609. The deposits are categorized in accordance with risk factors created by governmental reporting standards to give an indication of the level of risk assumed by the County at fiscal year-end. The following further categorizes the deposits held as of November 30, 2014 by risk category.

### Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, it is the County's policy generally to limit investments to 180 days or less. Consequently, repurchase agreements, money market accounts, and certificates of deposit are classified as cash equivalents.

### Credit Risk

In compliance with Illinois State law, County investments are limited to obligations of the United States of America, obligations guaranteed by the United States of America where the payment of principal and interest are guaranteed by the United States of America, obligations of the State of Illinois or any other state, or any political subdivision or agency of the State of Illinois or of any other state, whether the interest earned thereon is taxable or tax-exempt under federal law, special time deposit accounts, and certificates of deposit.

### Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. As of November 30, 2014, the government's bank balance of \$12,508,803 was covered by FDIC coverage and pledged securities.

### Concentration of Credit Risk

To promote competition in rates and service cost, and to limit the risk of institutional failure, County deposits and investments may be placed with multiple institutions. Therefore the Franklin County Treasurer designates certain banks and trust companies as depositories and establishes maximum deposit levels for each. Investments are also allowable through a public treasurer's investment pool created under Section 17 of the State Treasurer Act.

### NOTE 3 CASH DEPOSITS AND INVESTMENTS (CONCLUDED)

### B. <u>Investments</u>

Generally, the County's investing activities are managed under the custody of the County Treasurer. The Circuit Clerk will manage the investing activities for court cases and bond postings as mandated by the Court System. County funds may be invested in those instruments listed in the County's Investment Policy. The Investment Policy is written by the County Treasurer and contains the provisions authorized by the Public Funds Investment Act of the Illinois Compiled Statutes Chapter 30, Section 235/2. As of November 30, 2014, the County had several certificates of deposit, which are considered cash equivalents, and no investments.

### NOTE 4 <u>CAPITAL ASSETS</u>

Capital asset activity for the fiscal year ended November 30, 2014 is as follows:

Governmental Activities:	November 30, 2013		Α	Additions Dispositions			November 30, 2014	
Capital assets not being depreciated:								
Land	\$	110,250	\$	-	\$	-	\$	110,250
Total capital assets not being depreciated:	\$	110,250	\$	-	\$	-	\$	110,250

Total capital assets being depreciated:	\$	35,560,473	\$	351,485	\$	-	\$	35,720,346
Less Accumulated Depreciation:	\$	28,967,940	\$	645,000	\$	-	\$	29,612,940
Total capital assets being depreciated, net:	\$	6,592,533	\$	645,000	\$	-		6,107,406
Governmental activities capital assets, net:	\$	6,702,783	\$	645,000	_\$	_	\$	6,217,656

### Depreciation Expense

Depreciation expense was charged to functions as follows:

Governmental Activities: General government		645,000	
Total Depreciation expense	\$	645,000	

### NOTE 5 SHORT AND LONG-TERM DEBT

The County is subject to the Municipal Finance Law of Illinois, which limits the amount of debt that may be incurred (exclusive of revenue bonds) by the County to 2.875 percent of its assessed valuation.

Therefore, the County's legal debt limitation and legal debt margin as of November 30, 2014 was \$8,137,929 and \$5,267,929, respectively.

The Franklin County Board is subject to the provisions of 50 ILCS 405/1, which allows them to borrow funds for specified purposes. The County Board entered into a long-term debt arrangement with Peoples National Bank on August 29, 2005 for the construction of a juvenile detention center. This debt was refinanced on April 1, 2012 in the form of alternate revenue bonds. The refinanced debt will be fully paid on December 1, 2028. This refinanced debt agreement bonded \$2,910,000 for 16 years at interest rates ranging 2.7% - 5.9%. The bond agreement calls for semi-annual interest and annual principal payments. The combined annual debt and interest payments range from \$185,393 to \$244,800 per year.

### A. Summary of Debt Transactions

The general long-term debt as of November 30, 2014 follows:

November 30, 2013	Additi	ons	Deductions	November 30, 2014	Principal Amounts Due in One Year
\$ 969,400	\$		\$	\$ 969,400	Undeterminable
2,870,000		-	(120,000	2,750,000	120,000
295,000		_		295,000	÷
\$ 4,134,400	\$		\$ (120,000	\$ 4,014,400	\$ 120,000
	30, 2013 \$ 969,400 2,870,000 295,000	30, 2013 Additi \$ 969,400 \$ 2,870,000 295,000	30, 2013 Additions  \$ 969,400 \$ -  2,870,000 -  295,000 -	30, 2013 Additions Deductions \$ 969,400 \$ - \$ 2,870,000 - (120,000	30, 2013         Additions         Deductions         30, 2014           \$ 969,400         \$ -         \$ 969,400           2,870,000         -         (120,000)         2,750,000           295,000         -         -         295,000

### B. Future Debt Service requirements

The future debt service requirements for the remaining long-term debt are as follows:

Juvenile Detention Center Loan

Dated: April 1, 2012 Interest Rate: 2.7% - 5.9% Original Principal: \$2,910,000 Maturity Date: December 1, 2028

Year Ending				
November 30,	Principal	Interest	Total	
2015	\$ 120,000	\$ 112,930	\$ 242,930	
2016	145,000	105,382	240,382	
2017	145,000	97,683	242,683	
2018	150,000	84,587	234,587	
2019	155,000	75,885	234,587	
2020-2024	690,000	282,741	1,127,741	
2024-2027	1,345,000	208,913	1,553,913	
<u>Total</u>	\$ 2,750,000	\$ 968,121	\$ 3,876,823	

### NOTE 5 LONG-TERM DEBT (CONCLUDED)

The Statement of Net Position reflects an amount to be provided for long-term debt totaling \$2,750,000. \$2,630.000 is presented as a noncurrent liability and \$120,000 is presented as a current liability in the government-wide financial statements. During the year ended November 30, 2014 the County incurred \$183,703 of interest expense, of which all was expensed.

Compensated absences are liquidated by the General Fund when incurred. The Juvenile Detention Center loan payments are also paid by the General Fund and the Juvenile Detention Center Fund.

### NOTE 6 FACILITY MAINTENANCE

Per the Provisions of the Illinois Compiled Statutes, the Franklin County Sheriff provides for the maintenance of all Franklin County facilities, inclusive of the Franklin County Jail.

### NOTE 7 PENSION AND RETIREMENT FUND COMMITMENTS

### Illinois Municipal Retirement Fund (Defined Benefit Pension Plan)

Franklin County Government contributes under two separate Illinois Municipal Retirement Fund accounts: Sheriff's Law Enforcement Personnel (SLEP), and for all other covered county employees (Regular).

### Plan Description

Franklin County Government's defined benefit pension plan for Regular and SLEP employees provides retirement and disability benefits, post retirement increases and death benefits to plan members and beneficiaries. Franklin County Government's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple- employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at <a href="https://www.imrf.org">www.imrf.org</a>.

### Funding Policy

As set by statute, the employees participating in Regular IMRF are required to contribute 4.5% of their annual covered salary. SLEP members are required to contribute 7.5% of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer rate for calendar year 2014 was 11.40% of payroll for Regular IMRF and 22.46% of payroll for SLEP of annual covered payroll. The County also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

### Annual Pension Cost

For calendar year ended December 31, 2014, Franklin County Government's actual contributions for pension cost for Regular members were \$603,700 and \$175,976 for SLEP members.

### NOTE 7 PENSION AND RETIREMENT FUND COMMITMENTS

### Three-Year Trend Information for the Regular IMRF and SLEP IMRF Plan

### Trend Information

Actuarial Valuation Date	Annual Pension Cost	Percentage of APC Contributed	Net Pension Obligation
Regular			
12/31/14	\$603,700	100%	<b>`\$0</b>
12/31/13	577,186	100%	0
12/31/12	569,382	91%	0
SLEP			
12/31/14	\$175,976	100%	\$0
12/31/13	162,192	96%	0
12/31/12	162,517	92%	0

The required contribution for 2014 was determined as part of the December 31, 2012 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at December 31, 2012 included (a) 7.5% investment rate of return (net of administrative expenses), (b) projected salary increases of 4% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10% per year depending on age and service, attributable to seniority/merit, and (d) post-retirement benefit increases of 3% annually. The actuarial value of the IMRF assets for all plan types was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of the assets. The County Regular IMRF Plan's and SLEP IMRF Plan's unfunded actuarial accrued liability at December 31, 2012 is being amortized as a level percentage of projected payroll on an open 30 year basis.

### Funded Status and Funding Progress

### Regular IMRF

As of December 31, 2014, the most recent actuarial valuation date, the Regular plan was 79.90% funded. The actuarial accrued liability for benefits was \$13,882,944 and the actuarial value of assets was \$11,092,669, resulting in an underfunded actuarial accrued liability (UAAL) of \$2,790,275. The covered payroll for calendar year 2014 (annual payroll of active employees covered by the plan) was \$5,295,616 and the ratio of the UAAL to the covered payroll was 53%.

### **SLEP IMRF**

As of December 31, 2014, the most recent actuarial valuation date, the Sheriff's Law Enforcement Personnel plan was 67.66% funded. The actuarial accrued liability for benefits was \$3,683,121 and the actuarial value of assets was \$2,492,144, resulting in an underfunded actuarial accrued liability (UAAL) of \$1,190,977. The covered payroll for calendar year 2014 (annual payroll of active employees covered by the plan) was \$783,506 and the ratio of the UAAL to the covered payroll was 152%.

The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits

### NOTE 8 EMPLOYEES' INSURANCE

The Franklin County Government Health Insurance Fund provides health and welfare benefits to substantially all employees of the Franklin County Government. For a detailed description of the Plan's provisions, participants should consult the plan agreement.

### NOTE 9 FEDERAL AND STATE GRANTS

In the normal course of operations, the County receives grant funds from various federal and state agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the grant of funds. Any liability for reimbursement that may arise as the result of these audits is not believed to be material.

### NOTE 10 CONTINGENCIES

The County carries liability and excess liability insurance coverage in the event of damages awarded under various types of lawsuits, if any. Potential losses are recognized in the financial statements once a range of potential loss is determined. At this time there are no potential losses recognized in the financial statements.

### NOTE 11 CONTINGENT LIABILITIES

The County participates in a number of federal, state, and county programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the County may be required to reimburse the grantor government. As of November 30, 2014, the County believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual funds or the overall financial position of the County.

### NOTE 12 POST-EMPLOYMENT BENEFITS

In addition to the pension benefits described in Note 8, the County provides post-employment benefit options for healthcare, life insurance, and dental insurance to eligible retirees, terminated employees, and their dependents. The benefits are provided in accordance with County ordinances, collective bargaining agreements, and the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). The criteria to determine eligibility include: years of service, employee age, disability due to line of duty, and whether the employee has vested in the respective retirement plan. The County funds the benefits on a pay-asyou-go basis. Eligible employees are required to pay set premiums for all or a portion of the cost with the County recognized for post-employment benefits. Expenses for post-retirement healthcare benefits are recognized as eligible employee claims are paid.

### NOTE 13 RENT EXPENSE

The Franklin County Highway Department encounters rent income and expense between the various funds it maintains. Generally, the Highway General Fund has purchased equipment and provides the funding for payroll and fringe benefits expenses during the year. The other funds, such as Motor Fuel Tax, that incur projects during the year and utilize the equipment and manpower paid for by the Highway General Fund will reimburse the Highway General Fund for these expenses. These transactions have been disclosed in the financial statements as operating transfers in and out.

REQUIRED SUPPLEMENTARY INFORMATION

## FRANKLIN COUNTY GOVERNMENT IMRF SCHEDULE OF FUNDING PROGRESS NOVEMBER 30, 2014

### Schedule of Funding Progress

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
Regular						
12/31/14	11,092,669	13,882,944	2,790,275	79.90%	5,295,616	52.69%
12/31/13	11,021,448	13,343,602	2,322,154	82.60%	5,125,978	45.30%
12/31/13	9,358,286	12,199,511	2,841,225	76.71%	5,038,782	56.39%
SLEP						
12/31/14	2,492,144	3,683,121	1,190,977	67.66%	783,506	152.01%
12/31/13	2,155,885	3,298,971	1,143,086	65.35%	739,590	154.56%
12/31/12	2,097,925	3,369,277	1,271,352	62.27%	759,072	167.49%

### Regular IMRF

On a market value basis, the actuarial value of assests as of December 31, 2014 is \$13,135,927. On a market basis, the funded ratio would be 94.62%.

### **SLEP IMRF**

On a market value basis, the actuarial value of assests as of December 31, 2014 is \$3,084,579. On a market basis, the funded ratio would be 83.75%.

The actuarial value of assets and accrued liability cover active and inactive members who have service credit with Franklin County. They do not include accounts for retirees. The actuarial accrued liability for retirees is 100% funded.

## INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Franklin County Board Franklin County Courthouse Benton, IL 62812

#### Report on Compliance for Each Major Federal Program

We have audited Franklin County Government's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of Franklin County Government's major federal programs for the year ended November 30, 2014. Franklin County Government's major federal programs are identified in the summary of auditor's results section.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Franklin County Government's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Franklin County Government's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Franklin County Government's compliance.

## Unqualified Opinion on the Major Federal Program: Rend Lake Infrastructure Grant passed through the Illinois Department of Commerce and Economic Opportunity

In our opinion, Franklin County Government, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended November 30, 2014.

#### Other Matters

The results of our auditing procedures disclosed no instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133.

## Report on Internal Control over Compliance

Management of Franklin County Government is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Franklin County Government's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Franklin County Government's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses or significant deficiencies. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Yours truly,

HUDGENS & MEYER, LLC

## FRANKLIN COUNTY GOVERNMENT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS NOVEMBER 30, 2014

#### **NOTE 1: BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the County and is presented on the cash basis of accounting. The government-wide financial statements and fund financial statements are prepared on the accrual basis of accounting and modified accrual basis of accounting, respectively, as contemplated by generally accepted accounting principles. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the government-wide financial statements and the fund financial statements.

## **NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the county and is presented on the cash basis of accounting. The government-wide financial statements and fund financial statements are prepared on the modified accrual basis of accounting, as contemplated by generally accepted accounting principles. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, audits of States, Local Governments and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the government-wide financial statements and the fund financial statements.

Expenditures reported on the Schedule of Expenditures of Federal Awards are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-122, Cost Principles for Non-profit Organizations, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.
